ADA, OKLAHOMA, THURSDAY EVENING, AUGUST 31, 1911

NUMBER 127.

DURANT VERY MUCH STIRRED

THIRD ATTEMPT TO ASSAULT IN LESS THAN ONE MONTH.

Durant, Okla., Aug. 31.—Posses from Pirtle and Durant Wednesday night are searching for an unknown negro who is believed to have tried to attack Mrs. Ferrell, wife of a farmer living near Pirtle, late Wednesday evening.

Mrs. Ferrell with three of her children was picking cotton in a field near her home when one of the children espied the negro approaching. The child screamed and started to run, and the others, looking up, followed her. The oldest of the three children, all of whom were girls, is about twelve.

The black started on a run in pursuit of them, and following them for something like seventy-five yards.

A neighbor who was hunting in the

woods near the spot heard the screams of the woman and her children and ran from the woods with his shotgun. The negro, seeing him, turned and started to run towards the woods, and as he did so the man raised his gun and pulled the trigger. The weapon missed fire, and before the white man could prepare to shoot again the negro had disappeared into the woods.

A runner was sent to Pirtle, the nearest town, and news of the attempted attack was telephoned to Sheriff Hamilton here. He immediately started for the scene in a motor car.

News of the attempted crime was flashed from house to house in the country surrounding Pirtle, and a posse was made up quickly. The search began at once.

Wednesday night a negro was seen walking north on the tracks in Durant, apparently in a great hurry. He spoke to no one in this town as far as can be found and many of the citizens who had not started to Pirtle to assist in the search there, have gone in search of this man. Neither posse has been heard from as yet.

The fact that three crimes of this sort have been attempted in Bryan county recently has caused public sentiment to be aroused against the blacks, and there are few communities in the county where any negroes are living now.

Pirtle is one of the "all white" towns of the county, and there are no negroes living within six miles of the town so far as is known.

No one knows where the negro is supposed to live, but it is said that he went in a southwesterly direction after having been foiled in his attempt to assault Mrs. Ferrell.

COURT MAKES GOOD PROGRESS AT WEWOKA

Judge McKeown has been making things move over at Wewoka. Since the Edwards and Scribner cases were disposed of, the following have been taken up with the results named.

One conviction for perjury; one acquittal in larceny case; one conviction in murder case, two years sentence; one acquittal in manslaughter case and one for aggravated assault. Another murder case is on trial.

A special grand jury will be convened Monday to investigate a few killings and perjury cases.

Will Build Road in One Day.

Chickasha, Ok., Aug. 31.—It is proposed to build the state highway over the old Chisholm trail route through this county in one day. One thousand men and 250 teams will give their services, free one day for the building of the road. Every business man in this city will hire a farmer to represent him. The farmers along whose farm the road will pass will enter into a contract to drag the road after every rain.

NOTICE TO CONTRACTORS

The Union Carpenters of Ada and Union Bricklayers of Ada, have signed a working agreement to work for only such parties or contractors as employ workmen who are members of the Carpenters Union or Brick and Stone Masons Union of Ada. Signed: COMMITTEE.

MUSKOGEE CO. COURT HOUSE BONDS CARRY

Muskogee, Ok., Aug. 31.—The official canvass of the Muskogee county board of elections was made last night and the result showed that the \$500,000 bond issue for a city and county court house carried on both propositions.

On the first proposition, providing for the location and purchase of site the vote stood 2008 for, and 1300 against. On the three-fifths vote, the second proposition carried by a majority of 23.

On the second proposition, which provided for the issuing of the bonds, the vote stood 1945 for, and 1275 against. Figuring on a three-fifths majority basis, the proposition carried by 23 votes.

Eight precincts had to be thrown

out on account of irregularities. These precincts included Fourth ward, city of Muskogee; second of the first ward, city of Muskogee; Agency precinct No. 2, Harris precincts Nos. 1 and 2, Precinct No. 2 in Ogle township; precinct Nos. 2 and 3 in Nash township. In precinct No. 2, Martin township, no election was held.

In these cases the returns had not been properly certified to, and after a careful examination of the law, the board unanimously decided to throw out precincts that were irregular, in order to comply with the law.

When these were thrown out and the regular precincts figured up the bond issue carried.

The canvass was certified to and the board adjourned.

BYRD'S MILL WATER TOMORROW

It had been confidently expected that Byrd's Mill water would be flowing into town today, but that great event has been postponed for another day or two. Yesterday when water was turned on, a joint of the big wood pipe at a curve was forced out of the ground, necessitating some little delay in getting it in place again. It was planned to test the line from the end running into town today, and if everything is found to be in shape, another attempt will be made to pump from the spring as soon as the repairs are made on the wood line.

BANK ROBBERS AT CASHION

ATTEMPT TO BLOW BANK SAFE. ARE FRIGHTENED AWAY BEFORE ACCOMPLISHING MUCH.

Cashion, Okla., Aug. 31.—Although their plan to rob the First National bank of Cashion was well planned and they had cut all the telephone and telegraph wires leading from the town, the four or five men who attempted it early Wednesday morning made a failure.

For one thing the noise of the explosion awakened a large number of citizens, who ran out of their houses to learn the cause. Just after the explosion a number of young men who were rolicking along the street yelling and whooping came close to the bank. The robbers got only \$32.75 in the large safe, which the robbers had not yet attempted to blow open when they were frightened away, there was \$5,000 in currency.

At 1:30 o'clock Wednesday morning an automobile entered the city from the direction of Lockridge and at the city limits two or three men were seen to enter the car. The machine was then driven up to the bank door. While two men stood outside with drawn revolvers to warn their comrades of danger, the others went to work on the bank doors.

The explosion which shattered the door was evidently a misplanned one, for it made a terrific noise and awakened the town. As soon as the door was blown off the men attacked the cash drawer and appropriated all the cash they could find, amounting to \$32.75 in nickels and dimes.

Were Frightened Away.

It was about this time that the young men came along the street, causing the robbers to believe that the whole town was awake and coming to the defense of the bank.

The robbers then hurried to the car, which turned about and went away in the direction from which it came. When the town people attempted to warn Lockridge, Edmond and Oklahoma City of the attempted robbery they found the telephone and telegraph wires cut. It was two hours before communication could be had with those places.

THREATEN TO LYNCH NEGRO AT ARDMORE

Ardmore, Okla., Aug. 30.—Sheriff Buck Garrett, of this county, began swearing in deputies Wednesday night following rumors received here late on Wednesday afternoon that a mob was coming here from Colbert to lynch Alexander Posey, a negro arrested in Denison, Tex., last Saturday in connection with the kidnapping of the child of a farmer living near Colbert. The negro was brought to Ardmore for safe keeping.

Sheriff Garrett said Wednesday night he had heard such rumors, but if the negro was lynched it would be done in the county where the crime was committed. There are other bad prisoners in the jail here and the sheriff does not want a lynching party organized for fear that it will result in a battle that will cost many lives.

Posey denies that he made any confession to the officers of Bryan county, and stoutly denies that he is guilty. He says if he made any confession he did so when he was excited and does not remember it. The negro ate plenty Wednesday, but is very nervous.

Miss I. L. Gatlin returned to Sulphur this morning after a visit to Ada friends.

FORMER OKLA. LUMBERMAN RECEIVES THREATENING LETTER

Kansas City, Mo., Aug. 31.—It became known yesterday through a close business associate that R. A. Long, the millionaire lumberman, widely known for his philanthropic gifts, received a threatening letter last month demanding that he leave \$3,000 at a designated place for the writer of the letter.

The police are holding a man arrested near the Long home in connection with the case. The prisoner was armed with a revolver. The only charge against him, however, is that of carrying concealed weapons.

THE DEVIL SETTING TRAPS FOR MEN

Evangelist Wolfe's subject for this evening's service. Everybody invited, men and boys specially urged to come. The meeting is growing both in numbers and enthusiasm and promises to be the means of a great spiritual awakening in Ada.

Last evening the subject was "The Length and Height and Breadth of God's Love." It was a solemn hour as the preacher eloquently and earnestly portrayed the wonderful love of the great Creator for the creature. He showed from the Book that it is limitless, lasting from everlasting to ever lasting and including all men alike from the king on his throne to the gambler at the card table and the harlot wearing the scarlet letter of shame. He also brought out forcefully that God's love is unchangeable. That no man ever went to hell except in spite of the continued wooings of God's love.

Don't forget the subject for this evening "The Devil Setting Traps for Men."

Public School Opens September 4th

Three years ago the superintendent made a test of 100 pupils' eyes, taking them as they came by rooms. He found 65 percent had defective sight. Do you realize what this means to the comfort and health of the pupils, not to say anything of making them backward in their studies.

Bring or send the children to me and I will test their eyes free and tell you if they need glasses. I guarantee a fit or your money back.

For the convenience of the

No person of ordinary intelligence
any longer doubts that the tariff in-
creases the cost of living. The last
public utterance of President McKin-
ley ten years ago was to the effect
that the time had come when some
measure of relief should be granted
the people, but until this good hour
no relief has been given by the re-
publicans who have held the reins of
power for sixteen successive years.
Instead, the burdens have been made
heavier, until they have reached a
point where the people cannot bear
them in silence. They showed their
feeling last fall by electing a demo-
cratic house, but even that was not
enough to awaken President Taft to
the real gravity of the situation.
When the congress passed bills de-
signed to lighten the burdens of the
people, he promptly vetoed them, and
the people are still suffering under
the burdens imposed by trusts which
owe their origin to the tariff. In
their greed they have reached too far
and President Taft's stand only
attaches the certainty of a demo-
cratic victory next year.

Many states and cities have laws
requiring all moving picture films to
be censored by special officers be-
fore being shown. Such a law is
necessary in many cases, for other-
wise vile and disgusting pictures that
have a corrupting influence on the
youth of the land would be exhibited,
and many acts of lawlessness sug-
gested to their imaginative minds.

has no such law. The city council
now has an ordinance before it regu-
lating this matter and will probably
meet with no opposition from the
proprietors of the local theaters, for
it is seldom indeed that anything is
shown by them that is subject to crit-
icism. For emergencies, however, it
is very well to have the ordinance on
the statute books of the city.

Press dispatches tell of the re-
moval of a part of a man's backbone
by surgeons. If someone can be found
who is able to supply backbones to
those deficient in that particular, his
fortune would be made.

A sentimental old fellow in Ohio
has announced his intention of mak-
ing it the principal object of his life
to love old maids. Don't do it, bud,
the editor of the News has tried lov-
ing two or three in his time, and ev-
ery blamed one of them informed him
that she was a trifle particular about
who loved her, and did not need the
love any old bachelor who walked
the face of the earth, anyway. Am-
ply able to take care of herself, thank
you.

According to ancient legend sail-
ors on certain coasts had to keep
their wits about them or the charms
of the man-devouring sirens would
prove too strong for them and lure
them to destruction. However, if
those ancient mariners were like the
average man of today, it is a pretty
safe bet that they never wasted any
time trying to keep clear of the
neighborhood of these dangerous lad-
ies.

It is just a year since the Ada
News and Democrat were consolida-
ted. It has been a busy year for those
concerned, but the results have been
satisfactory. It has been our utmost
endeavor to give the public a good
readable paper, and although we have
not by any means reached the high
mark we set for ourselves when the
consolidation was effected, the liber-
al support given us by our readers
shows that our efforts have at least
been appreciated. In the near future
we hope to put on a good telegraph-
ic service which will give our read-
ers the news of the outside world a
day sooner than they now get it. It
is up to the public. If the paper and
its job department are given the uni-
ted support of the community, we can
afford this additional cost. Of course
the subscription and advertising rates
will not be increased. It is just an
increased volume of business that
must be had if we are to make this
great improvement.

The Controller Bay Scandal.

Mud flats here, shallows there, the
great waves of the mighty Pacific
rolling up everywhere, the south
coast of Alaska is most uninviting to
shipping. Just back of this difficult
shore lies a range of well-nigh im-
passable mountains. Within and be-
yond the mountain barrier is bound-
less wealth in coal, copper, gold, ag-
ricultural possibilities—everything
that constitutes our national treas-
ure in Alaska.

But Alaska's billions of tons of
coal and copper will be of small val-
ue till we can reach them.

It is a question of transportation.
The Guggenheim syndicate sought to
grab Alaska's coal and finally failed.
Then it concluded, to control the
transportation. It induced congress
to give it substantially exclusive
rights to build a railroad to the cop-
per and coal mines. It seized what
was supposed to be the only avail-
able harbor, Cordova Bay.

The Guggenheim monopoly seemed
secure, but Controller Bay proved a
possible, and even desirable, harbor.
The Guggenheims had to have it. A
rival company asked for rights on
Controller Bay, but the objection of
Senator Simon Guggenheim killed his
bill. Six months later, the Guggen-
heims had laid claim to what this
rival lost because there was a Gug-
genheim in the senate!

The Guggenheims seemed in con-
trol. But in fact they had only one
side of the bay. They needed the other,
and presently Richard S. Ryan—
believed by many observers to be a
Guggenheim agent, appeared in Wash-
ington asking President Taft for this
shore line in the name of what he
says is an independent company. He
got it, by dint of an executive order,
issued practically in secret and by a
most unusual procedure.

There is the substance of the con-
troller Bay story. Congress discovered
by accident this executive order—
amounting to a grant—and called
for information. The president replied
to all these charges, not by sending
the documents in the case, which
had been asked, but with a long and
emphatic special message.

The fact is that Roosevelt had in-
cluded these harbor lands in the forest
reserve in order to prevent any-
body's getting them; Taft took them
out of the reserve by a secret pro-
cedure that was perfectly certain to
give them to Ryan, who may reason-
ably be considered as an agent for
the Guggenheims.—Success Magazine.

OLD-TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded
and Gray Hair—Dandruff
Quickly Removed.

From time immemorial, sage and sul-
phur have been used for the hair and
scalp. Almost everyone knows of the
value of such a combination for dark-
ening the hair, for curing dandruff and
falling hair, and for making the hair
grow.

In olden times the only way to get a
hair tonic of this sort was to brew it in
the home fireplace, a method which was
troublesome and not always satisfactory.
Nowadays almost every up-to-date drug-
gist can supply his patrons with a ready-
to-use product, skillfully compounded in
perfectly equipped laboratories. The
Wyeth Chemical Company of New York
put up an ideal remedy of this sort,
called Wyeth's Sage and Sulphur Hair
Remedy, and authorize druggists to sell
it under guarantee that the money will
be refunded if it fails to do exactly as
represented.

This preparation is offered to the
public at fifty cents a bottle, and is
recommended and sold by all druggists.

AEROPLANE RACE FROM PACIFIC TO ATLANTIC

New York, Aug. 31.—There are now
three entrants in the \$50,000 coast-to-
coast aeroplane race, and followers of
aerial navigation believe that the
greatest air race in the world is in
prospect. The three men who have
announced they will make the flight
are Harry N. Atwood of Boston, hold-
er of the world's cross-country record;
C. P. Rogers, who won the en-
durance record at the Chicago avia-
tion tournament, and Robert G.
Fowler. So far Fowler is the only
man who has officially entered the
race, but the other two have signi-
fied their intention of competing.

The 3,500-mile air dash will be
made soon. Fowler has signified his
intention of starting from the Pacific
coast on September 10, if weather
conditions permit, making his way
over a sky line via Reno, Salt Lake,
Denver, Omaha, Des Moines, Chicago,
Pittsburg and the Hudson Valley. He
has planned to cross the Rocky Moun-
tains between Cheyenne, Wyo., and
Denver. Fowler is en route for the
Pacific coast today, having left here
yesterday.

Antis Are Sore on Joe Bailey.

Austin, Tex., Aug. 30.—It became
known today that on Monday and
Tuesday a meeting was held here by
fifty prominent anti-prohibitionists,
thirty of them being members of the
legislature, and all being former sup-
porters of United States Senator Bai-
ley, at which the idea was advanced
that Col. J. F. Wolters should be-
come a candidate for the United
States senate against Mr. Bailey. This
idea was put up to Col. Wolters and
he was urged to make the race. He
answered, it is said, that he did not
want any elective office, and left the
matter there.

It is said that these anti-prohibi-
tionists feel that Senator Bailey did
not by his conversion to the anti-
prohibition side add 5,000 votes to the
number against prohibition in the re-
cent election and that, upon the other
hand, 50,000 to 60,000 anti-prohibi-
tionists voted for the prohibition
amendment to emphasize their disap-
proval of Senator Bailey.

Some of the men who were in these
meetings have declared that the
cause of anti-prohibition would get
along better if Senator Bailey should
get back on the other side.

CITY SCHOOLS WILL OPEN NEXT MONDAY

COMPULSORY ATTENDANCE LAW
WILL BE RIGIDLY ENFORCED
SHOULD ENROLL EARLY.

The public school buildings will be
opened Monday the 4th of September
from 9 a. m. to 10 a. m. and from 1
p. m. to 3 p. m. during which time
all public school pupils are urged to
enroll. This is necessary that we may
know just how many pupils there will
be in the different grades. All pupils
living South of a line running along
the Frisco railroad from the west to
Main street east on Main to Rennie
avenue, south on Rennie to 13th
street, and east on 13th to the Katy
tracks will enroll at the High school
building. Those living North of this
line west of Rennie avenue will en-
roll at Irving, or North school, and
all east of Rennie and North of 13th
street and all living east of the Katy
tracks will enroll at Willard school.

All of the grades up to the Ninth
will be taught at each of the build-
ings and ninth grade pupils living
in any part of the city may attend
the High school at the South build-
ing. Departmental work will be done
at this building in the seventh, eighth
and ninth grades. The following
teachers will have charge of this
work: Prof. J. W. Shipp, English and
Reading; Miss Evalie Hughston, His-
tory and Geography; Miss Minnie
Granger, Mathematics and Foreign
Language.

All children who have never at-
tended school must enroll during the
first two weeks of the term or they
will be asked to wait until the be-
ginning of the second term, January
8th, 1912, unless they are able to en-
ter classes already formed.

The Board of Education has passed
a resolution to enforce the compul-
sory school law and since we will
have only an eight months term, pu-
pils will have to enter early in order
to attend the six months required by
law.

BIG CROWD TURNS OUT AT LYRIC AIRDOME

The Spanish-Mexican Bull Fight
pictures shown at the Lyric Airdome
last night taxed the theatre to its ca-
pacity, and the exhibition brought
forth a volume of praise from the
audience after seeing the pictures.
The pictures are very complete in ev-
ery detail, and reproduce two of the
fiercest and highest class bull fights
ever fought.

Mr. Miller lectures the pictures, ex-
plaining all the details clearly to the
audience. For those who wanted a
thorough knowledge of bull fighting
these pictures afforded a great op-
portunity. A strong recommendation
for the films is the fact that these
fights were witnessed by 30,000 people
in Mexico City, including President
Diaz, his family and the government
cabinet. They will be shown for the
last time tonight in conjunction with
a high class vaudeville act, making
an even stronger program than last
night.

Classified Advertising

Divides this Paper's Readers Into Dif- ferent Groups

One group will read all of the Situations Wanted
Ads—because every person in that group is look-
ing for a worker.

A second group of readers will read all of the Fur-
nished Rooms To Let Ads—because every person
in the group is looking for a furnished room.

A third group will read all of the Real Estate Ads
—because every person in the group is a prospec-
tive buyer of real estate.

A fourth group will read all of the Business Op-
portunity Ads—because this group consists of peo-
ple who MAKE THEIR MONEY WORK FOR
THEM—and are ALWAYS looking for GOOD
JOBS FOR DOLLARS.

Thus every classification draws to itself a group
of readers influenced by self-interests—to every-
one of whom that classification of ads. means
PERSONAL OPPORTUNITIES.

Your classified ad. therefore, has an audience
awaiting it—an audience of alert people, anxious
to consider your offer or your want, and to do
business with you if your proposition is plausible.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is
Caused by a Germ.

Science is doing wonders these days in
medicine as well as in mechanics. Since
Adam lived, the human race has been
troubled with dandruff, for which no hair
preparation has heretofore proved a suc-
cessful cure until Newbro's Herpicide was
put on the market. It is a scientific pre-
paration that kills the germ that makes
dandruff or scurf by digging into the
scalp to get at the root of the hair, where
it saps the vitality; causing itching scalp,
falling hair, and finally baldness. With-
out dandruff hair must grow luxuriantly.
It is the only destroyer of dandruff.

L. A. Sanders came near losing his
buggy by fire yesterday. He was driv-
ing past the cemetery when J. E.
England, the sexton, noticed fire com-
ing from the rear of the vehicle. He
called to Mr. Sanders, who had not
noticed it, and ran to his assistance
with a bucket of water. When he
raised the cushion the fire leaped up
several feet, but the water put it
out and saved the buggy. The fire
probably originated from a cigar Mr.
Sanders was smoking at the time.

A story of the trouble an Editor had to please all the people. A comedy of politics in the town of Possum Trot.

Thos. A. Edison's Great Special Feature:

THE STAR-SPANGLED BANNER

How many of those who have sung and listened to the above immortal son: know of the dramatic incident connected with its composition or how its author, Francis Scott Key, was inspired to write it! These in the shape of an interesting, connected story are told in this really remarkable film. It is from every point, historical, educational, dramatic and spectacular—of surpassing merit, and will make a wonderful patriotic appeal.

About the best thing in the moving picture line the reporter has seen lately, was the famous raid of Capt. Andrews and a squad of federals in George in war times, as exhibited at the Majestic last evening. The capture of one engine and pursuit by another, the capture of the daring raiders, all form a picture of historical interest and one that has a great instructive value. To Owners of Real Estate In Pontotoc County

There are frequently found, upon examination, unknown and unsuspected clouds upon the title of real estate, such as unpaid taxes, cancelled mortgages, mechanic liens, judgments, deeds of conveyances defective in signature, in acknowledgment or description, adverse claimants, errors made by conveying officers, and innumerable other defects, any of which may exist, all unsuspected by the owner, who fondly believes his title clear, but who really knows nothing about it, because he has never had an investigation made and an abstract of title prepared. Most of these clouds and defects could be cleared and cured were their existence known in time; but they lay dormant and are not discovered until the owner is rudely awakened from his fond dream of security by some progressive speculator or purchaser offering a good round price for his property, but demanding an abstract of title as the first condition of the sale.

VALUATIONS PASS THE BILLION MARK

INCREASE IN VALUATION OF OKLAHOMA PROPERTY ABOUT 45 PERCENT OVER 1910.

Oklahoma City, Ok., Aug. 30.—Oklahoma property values for 1911 taxation have been raised by the state board of equalization nearly 45 per cent, or from a total of a little in excess of \$916,000,000 in 1910 to \$1,324,000,000, as shown by figures furnished Gov. Cruce and the board today by the auditing department.

The greatest increase for this year was in county valuation, embracing farm land, live stock and personal property returned to the state board by counties, which was jumped from \$693,000,000 for last year to \$1,075,000,000. The approximate total of public service property for 1911 is \$250,000,000 increase of about \$26,000,000. Of the grand total heat, light and power companies are \$14,000,000, increase of \$8,500,000, pipe line companies \$29,500,000, increase of \$7,600,000; express companies, which were assessed last year at a total of \$80,000, are down this year for \$2,877,000; telegraph companies \$1,500,000, increase of \$283,000; telephone companies \$4,800,000 increase of \$1,750,000; railroads \$192,000,000, increase of \$3,500,000.

A session of the board was held today to make the state tax levy, but action was deferred until Friday, when full data as to the state debt will be before the members. It is unofficially estimated that to care for the governmental expenses during the next two years and pay outstanding bonds and general revenue warrants the state will need a little over \$6,000,000,000. There are outstanding unpaid warrants, much of which was inherited from the Haskell administration, about \$3,000,000, and appropriations for the two years total about \$2,500,000. The constitutional tax limit for state purposes is but 3 1-2 mills.

The Indian Territory Illuminating Oil company, which holds a blanket lease to more than 600,000 acres of oil and gas lands in the Osage Indian reservation, and previously valued by the State board at \$1,135,000, was reduced today to \$538,000, the present market value of its capital stock at 15c per share. The Texas Pipe Line Company, which has filed notice of appeal to the supreme court from the board's assessment of \$5,370,000 was deducted to about \$3,000,000, being on the same basis employed for the Prairie Oil and Gas Company. The Kansas Natural Gas Company, the carrying concern from the Oklahoma state line to Kansas points and Kansas City, was assessed at \$1,400,000. The company declined to give the board details, according to Attorney General West, concerning its contract with the Marnet company, operating in the state. The Kansas Natural informed the board at previous meetings it had no property in the State of Oklahoma.

In response to the Western Union, requesting the board to make of record all the elements it considered in reaching the value of its property, a resolution dictated by the Attorney General was adopted advising that it included the records in the several tax suits pending here and before the United States courts, also "every other element that would assist the board in arriving at the face cash value of the property."

Work of the state board this year was to elevate values to approximately what the property would bring at voluntary sale, and in doing so, some enormous raises were made over last year, and what the companies and county officials returned. One of the heaviest increases was in merchandise stocks, and two counties were corrected today. Greer county was fixed for that class at \$545,610, an increase of 50 per cent over the return and Kiowa \$622,748, an increase of 40 per cent above the return.

More people, men and women, are suffering from kidney and bladder trouble than ever before, and each year more of them turn for quick relief and permanent benefit to Foley's Kidney Remedy, which has proven itself to be one of the most effective remedies for kidney and bladder ailments, that medical science has devised. Sold by Jones Drug Co.

Cuts and bruises may be healed in about one-third the time required by the usual treatment by applying Chamberlain's Liniment. It is an antiseptic and causes such injuries to heal without maturation. This liniment also relieves soreness of the muscles and rheumatic pains. For sale by All Dealers.

S.S.S. CURES OLD SORES

Every person afflicted with an old sore realizes, sooner or later, that the ulcer exists because of bad blood; the character and condition of the place depending on the nature of the blood infection. Virulent impurities in the circulation produce angry, discharging ulcers, while milder, inert germs are usually manifested in the form of indolent sores or dry, scabby places. External treatment can never cure an internal trouble, therefore no one should depend upon salves, washes, lotions, etc., alone to cure a chronic sore. It is necessary to remove the cause before the place can heal. S.S.S. heals Old Sores by going down into the circulation and removing the impurities and germs which are responsible for the place. In addition to purifying the blood S.S.S. enriches this vital fluid so that the irritated flesh around an old sore is naturally and thoroughly stimulated, and a permanent cure results, because every morbid influence has been removed. S.S.S. is the best of all blood purifiers and therefore a natural remedy for old sores. Book on Sores and Ulcers and medical advice free. S.S.S. is sold at drug stores. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

SECOND BAPTIST CHURCH CALLS PASTOR

The Second Baptist church has called as pastor Rev. L. W. Wright of Mill Creek, an able preacher, who has lived in that section for many years. He was in town yesterday and this morning conferring with the members of his flock.

During the progress of the revival meeting at the First Baptist church, there will be no services at the second church, but after its close the services will be held every second and fourth Sunday as heretofore.

COTTON RECEIPTS 25 BALES PER DAY

W. K. Chaney informs the News that cotton is coming in at the rate of about 25 bales per day. By Saturday it is thought that the number will be increased to 50. The price has averaged 11c, but the greater part of the crop brought in thus far has been held.

THE BLAME RESTS ON PRESIDENT TAFT

(By Clyde H. Tavenner.)

Washington, Aug. 31.—President Taft's veto of the wool bill means there will be no reduction this winter in the price of woolen clothing of any sort for men, women and children, nor in the prices of blankets, nor any other forms of woolen manufactures needed for warmth by the general public.

And just so much as the public would have saved in cheaper woollens, together with the amount the farmers would have saved in cheaper agricultural implements had the president signed the free list bill, will be transferred unjustly to the coffers of the woolen trust and the harvester

trust, two star contributors to the republican campaign fund.

What is the president's defense for refusing to permit a reduction in the cost of living? Let us see: First, he makes the point the wool bill was unconsidered, when as a matter of fact the ways and means committee put in three months of sincere investigation and study before the bill was framed, which is twice the length of time given to the consideration of the woolen schedule of the Payne Aldrich bill and which document the president signed readily enough.

Second, the president asks that the people continue to pay exorbitant prices for woollens until he hears from his tariff board, which is packed with men who take the high-protection view point, and whose chief agents and alleged "impartial" investigators abroad are writing back articles for American newspapers ridiculing and belittling the crying de-

mand of the consumers for tariff revision downward.

Mr. Taft's message against cheaper woollens will go down as a document of misrepresentation, false pretense and excuses. The real reason the president vetoed the various tariff bills was not stated in any of his messages. It was because he was under obligations to the beneficiaries of the Payne-Aldrich law to serve their interests instead of the public interest. Mr. Taft was elected president, it should be remembered, with a campaign fund contributed by special privilege. Then the great tariff trusts extended further aid (and placed Taft further in their debt) by frightening their employees into voting for Taft with the threat their factories and mills would be closed unless he was elected. And, just as he was the candidate of special privilege, Mr. Taft is also the president of special privilege.

Thus it is shown again how protection makes politics a business proposition. The trusts contribute campaign funds to the party of the high protection wall with the intention of not only recovering from the public in excessive prices the amount of their campaign fund investments, but with the determination of extorting stupendous dividends as profits. Mr. Taft proved an exceptionally good investment for the tariff trusts.

VICTIM OF NEGRO MAY NOT RECOVER

Purcell, Okla., Aug. 30.—Mrs. Minnie Spraggins, who was beaten and assaulted by a negro Wednesday night, the crime resulting in the burning of Peter Carter, a negro identified as her assailant, on the main street of Purcell, is still alive, although she is in a critical condition. Physicians say her recovery is very doubtful. Under Sheriff Frank Farris, who with Deputy Sheriff Hayes was locked in a room in the court house during the lynching of the negro, said that an effort was being made to learn who the leaders of the mob were, but with little success. "We do not expect a grand jury investigation," he said. He did not recognize any of the leaders, the officer said. Both Farris and Hayes say they do not know the men who prevailed on them to go to the court house room where they were held prisoners.
